

Laptop Selling system	
Test plan ID	1
Brief introduction about the system	This is a web-based Laptop Selling System designed to allow customers to browse laptops, compare specifications, register/login, place orders, and make online purchases. Admins can manage products, update inventory, and handle customer orders through the system.
Test objectives	• Inputting of data by Admin and customers • Storing of data • Outputting stored data • Interacting with admin and customers
Features to be tested	• Admin registration & login • Customer registration & login (Seller and buyer)
Test environment	Device – Samsung Laptop Windows 11
Test approach	Blackbox
Testing tasks	• Test will be carried out for each of the functions in the system, admin and customer wise, checking the functionalities of each. • Tests will be evaluated individually for each part in the system
Test deliverables	Tests will deliver the output and the evaluation of each segment highlighting weaknesses and errors in the code if there are any
Schedule	Date: 04-12-2025 Time: 8.33 a.m.

Test case	
Test unit: Registering a admin and login in	Tester: Kavindya
Test case ID: 1	Test type: Black box testing
Test description: We will register a admin into the system and login to the system using their emailaddress and password	Test execution date: 04-12-2025
Title: Admin login	Test execution time: 8.41 a.m.

Test case	
Test unit: Registering a customer(seller) and login in	Tester: Kavindya
Test case ID: 2	Test type: Black box testing
Test description: We will create a account to seller and login to the system using their emailaddress and password	Test execution date: 04-12-2025
Title: Customer login	Test execution time: 8.50 a.m.

Test case	
Test unit: Registering a customer(buyer) and login in	Tester: Kavindya
Test case ID: 3	Test type: Black box testing
Test description: We will create a account to buyer and login to the system using their emailaddress and password	Test execution date: 04-12-2025
Title: Buyer create a account	Test execution time: 9.05 a.m.

Test case	
Test unit: Admin Login Security	Tester: Kavindya
Test case ID: 4	Test type: Security/Black box testing
Test description: We will check if login form is vulnerable to SQL Injection	Test execution date: 04-12-2025
Title: SQL Injection Test on Admin Login	Test execution time: 9.25 a.m.

Step no	Test step	Test case ID	Test input	Expected result	Actual result	Test result (pass/fail)
1	Login a admin into system	1	Email Address: admin@gmail.com Password:Admin@123	Signin Successfully	Signin Successfully	pass
2	Login a admin to system (wrong Email Address)	1	Email Address: admin@gmail.com Password:Admin@123	Alert : (please include an @ in the email address)	Alert : (please include an @ in the email address)	pass
3	Login a admin into system (wrong password)	1	Email Address: admin@gmail.com Password:admin@123	Invalid login credentials	Invalid login credentials	pass
			Email Address: admin@gmail.com Password:admin@123	ErrorMessage: (Password must contain at least one uppercase letter)	ErrorMessage: (Password must contain at least one uppercase letter)	pass
			Email Address: admin@gmail.com Password:ADMIN@123	ErrorMessage: (Password must contain at least one lowercase letter)	ErrorMessage: (Password must contain at least one lowercase letter)	pass

			Email Address: admin@gmail.com Password:Admin@2	ErrorMessage: (Password must be at least 8 characters)	ErrorMessage: (Password must be at least 8 characters)	pass
			Email Address: admin@gmail.com Password:Admin123	ErrorMessage: (Password must contain at least one special character)	ErrorMessage: (Password must contain at least one special character)	pass
4	Create account a seller	2	Fullname: kavindya sathsarani EmailAddress: seller@gmail.com Password:Seller@123	Account created successfully and moved to seller dashboard	Account created successfully and moved to seller dashboard	Pass
5	Create account a seller (wrong Email Address)	2	Fullname: kavindya sathsarani EmailAddress: sellergmail.com Password:seller@123	Alert : (please include an @ in the email address)	Alert : (please include an @ in the email address)	Pass
6	Create account a seller (wrong password)	2	Fullname: kavindya sathsarani EmailAddress: seller@gmail.com Password:Seller@123	ErrorMessage: (Password must contain at least one uppercase letter)	ErrorMessage: (Password must contain at least one uppercase letter)	Pass
			Fullname: kavindya sathsarani EmailAddress: seller@gmail.com Password:Seller123	ErrorMessage: (Password must contain at least one special character)	ErrorMessage: (Password must contain at least one special character)	pass
			Fullname: kavindya sathsarani EmailAddress: seller@gmail.com Password:SELLER@123	ErrorMessage: (Password must contain at least one lowercase letter)	ErrorMessage: (Password must contain at least one	pass

					lowercase letter)	
			Fullname: kavindya sathsarani EmailAddress: seller@gmail.com Password: Seller@	ErrorMessage: (Password must be at least 8 characters)	ErrorMessage: (Password must be at least 8 characters)	pass
7	Create account a buyer	3	Fullname: Kaveesha Kavinda EmailAddress: seller@gmail.com Password: Seller@123	Account created successfully	Account created successfully	Pass
8	Create account a buyer (wrong Email Address)	3	Fullname: Kaveesha Kavinda EmailAddress: buyer@gmail.com Password: Buyer@123	Alert : (please include an @ in the email address)	Alert : (please include an @ in the email address)	Pass
9	Create account a buyer (wrong Password)	3	Fullname: Kaveesha Kavinda EmailAddress: buyer@gmail.com Password: buyer@123	ErrorMessage: (Password must contain at least one uppercase letter)	ErrorMessage: (Password must contain at least one uppercase letter)	Pass
			Fullname: Kaveesha Kavinda EmailAddress: buyer@gmail.com Password: BUYER@123	ErrorMessage: (Password must contain at least one lowercase letter)	ErrorMessage: (Password must contain at least one lowercase letter)	pass
			Fullname: Kaveesha Kavinda EmailAddress: buyer@gmail.com Password: buyer123	ErrorMessage: (Password must contain at least one special character)	ErrorMessage: (Password must contain at least one special character)	pass
			Fullname: Kaveesha Kavinda EmailAddress: buyer@gmail.com Password: buyer@1	ErrorMessage: (Password must be at least 8 characters)	ErrorMessage: (Password must be at least 8 characters)	pass

10	Attempt SQL Injection login	4	Email: admin' OR '1'='1 Password: 123	System must block login, show "Invalid login credentials"	Invalid login credentials	pass
